7	28	2	26	61	35	26	52
TOTAL	501	55	446	813	394	419	865

All reported HIV and AIDS cases in Idaho, regardless of residence at first diagnosis or death.

*Reported HIV cases presumed living - Reported cases of HIV not reported with AIDS EVER REPORTED in Idaho and have not been reported as deceased. Previous prevalence tables only included cases first reported in Idaho. Reported AIDS cases presumed living - Reported cases of AIDS EVER REPORTED in Idaho and have not been reported as deceased. Previous prevalence tables only included cases first reported in Idaho.

**HIV (+) - Total number of reported HIV seropositive individuals EVER REPORTED in Idaho, excluding AIDS cases.

***Reported HIV/AIDS cases presumed living - Total number of HIV and AIDS cases EVER REPORTED in Idaho that have not been reported as deceased.

Note: The number of cases during the time period is artificially low because data entry resources usually reserved for STD/HIV were temporarily allocated to the West Nile Virus epidemic. The backlog of STD case reports has been eliminated and these cases will show in next quarter's figures.

TOTAL	398	100%

Reports of HIV positive and AIDS cases should be made to the Office of Epidemiology and Food Protection as required by Idaho Code 39-602. Data collection and publication is made possible through a federal grant from the Centers for Disease Control and Prevention, United States -- Department of Health and Human Services. Idaho statistics are posted on the Internet four times per year. To be placed on an e-mail alert group to signal you when a new issue is posted, please e-mail Allen Haumann at haumanna@idhw.state.id.us.
